

EYES UP

DIRECTED BY Stefano Mecca

WITH Chiara Carrara and Andrea Rodegher

Is it coming? It's coming!

Let's wait. And meanwhile... let's play!

Let's play to build, let's play to wait.

It will show up from above so... eyes up!

"Let's say we are" in a building site among tools and small bricks.

A workwoman, a workman and a very special helper.

And a wall. A wall?!? A wall, not meant to separate,

to protect nor to hide... but to welcome.

Maybe it's not really a wall...

Eyes up to see if it comes, to start a new game!

In the outburst of colors and music, among unexpected appearances and unlikely games, Eyes Up will bring you to a world where the desire to play together is in a constant construction, where the works are suspended by amazement and amusement.
